## Dodge® Pickup Turbochargers

Flight Diesel is offering remanufactured turbochargers for Cummins® 5.9L and 6.7L engines used in Dodge® diesel trucks. Six part numbers cover Cummins® 24-valve engine applications from 1998.5 to 2012. These turbochargers go through our thorough remanufacturing process that ensures optimum quality and reliability.

- All rotating components are balanced at low speed prior to assembly
- Assembled cartridges are high speed dynamic balanced on a vibration sorting rig VSR
- All turbochargers with waste-gates come with 100% new pneumatic actuators
- Electronically actuated turbochargers receive a remanufactured smart actuator which is individually tri-temperature tested, including range of travel and operating load at thermal extremes

Description	Model Year	Reference PN	Flight Diesel PN
Cummins® 5.9L Auto/Manual Trans HX35W	1998.5-1999	3590104 3800397 3802946 3539343	FSR3590105
Cummins® 5.9L Manual Trans HX35W	2000-2002	3800799 3592766	FSR3592767
Cummins® 5.9L Auto Trans HY35W	2000-2002	3800970 4036239	FSR3592811
