6.4L Fuel Injection Pump

6.4L Fuel Injection Pump

A properly functioning high pressure fuel pump is critical to maintaining fuel rail pressure at all engine RPM levels. Fuel contaminants can cause wear and premature failure of the pumps. Flight Diesel has expanded our current aftermarket offering to include remanufactured fuel injection pumps for Ford® Power Stroke® 6.4L engines from 2008 to 2010.

- All units are completely disassembled and precision cleaned
- Components are recertified to tight tolerance specifications
- Finished pumps are tested to ensure fuel flow and pressure meets precise specifications on state-of-the-art test equipment
- Remanufactured pump and fuel pump cover seal kit combo available

OEM Pump Cover Seal Kit - 8C3Z-9G805-B

Make	Year Range	Reference PN	Flight Diesel PN
Ford® Power Stroke® 6.4L	2008-2010	8C3Z-9A543-DRM	R8C3Z9A543DRM
Ford® Power Stroke® 6.4L with Pump Cover Seal Kit	2008-2010	Above pump with new OEM seal kit 8C3Z-9G805-B	R8C3Z9A543DRM-K
