G2.9 Injector Remanufacturing Program

Flight Diesel has expanded our current aftermarket fuel injector offering to include remanufactured G2.9 fuel injectors for Navistar® DT466, DT570, MaxxForce® 9 and MaxxForce® 10 medium duty engines.

- Each disassembled injector is processed keeping all components together to minimize part fit variation and maintain original performance
- Each injector receives a new nozzle and new coil assemblies for maximum reliability
- After assembly, all injectors are 100% tested and data is recorded for critical engine application checkpoints, to assure a quality product
